

## **SOS27 Workshop**

**Speaker first name, last name, and affiliation:**

Foteini Strati, ETH Zurich

**Presentation title:** “SAILOR: Fast, Cost-Effective ML Training”

**Biography (max 700 characters, space included):**

Foteini Strati is a 4th year PhD student at the Systems Group of ETH Zurich, supervised by Prof. Ana Klimovic. She is interested in Systems for Machine Learning. Currently, she is working on increasing GPU utilization and fault tolerance of ML workloads. During her PhD, she has completed internships in Microsoft Research and NVIDIA. She obtained a MSc degree in Computer Science from ETH Zurich, and a Diploma in Electrical and Computer Engineering from the National Technical University of Athens.
