

SOS27 Workshop

Speaker first name, last name, and affiliation:

Arthur “Barney” Maccabe, University of Arizona

Presentation title: “Toward a Health Data Commons for Arizona”

Biography (max 700 characters, space included):

Arthur “Barney” Maccabe is a professor of Information Science and Director of the Institute for Computation and Data-Enabled Insight (ICDI) at the University of Arizona. ICDI is committed to helping researchers expand the impact of their work, creating career opportunities for students, and, consistent with the university’s land-grant mission, growing the economy of the state of Arizona. Dr. Maccabe previously served as Director of the Computer Science and Mathematics Division at Oak Ridge National Laboratory and as a professor of Computer Science at the University of New Mexico. His research has focused on the design and development of system software for massively parallel systems.
