SOS27 Workshop

Session Chair first name, last name, and affiliation:
Ron Brightwell, Sandia National Laboratories

Biography (max 700 characters, space included):
Ron Brightwell currently leads the Scalable System Software Department in the Center for Computing Research at Sandia National Laboratories in Albuquerque, New Mexico. In his 29 years at Sandia, he has designed and developed lightweight compute node operating systems and software to enable high-performance networking hardware on several extreme-scale parallel computing systems. He has authored more than 115 peer-reviewed research publications in high-performance computing and is a Senior Member of the IEEE and ACM.
